

## Testimonial

"I am writing to thank you for the financial help you gave me (for the past three years). Both of my parents died of AIDS. My brother could not even support himself or care for me. Life became tougher especially when I started school in class One (First grade at age 10). There was no money to buy school uniform, text books, or notebooks. I continued in this hardship of going to school without adequate school requirements every year. Life changed when I got your financial help. My age is 13, and I am doing well in lessons. I thank you very much for your assistance, and believe that you have helped me to be good."

## Who We Are

Reaching Hearts for Kids is a humanitarian outreach of Reaching Hearts International, a non-profit 501(c)3 religious organization located in Maryland.

## Our mission

Reaching Hearts for Kids expresses active compassion through a charitable blending of faith and work, in order to provide children in need with the opportunity to live healthy, fulfilled lives.

## What We Do

Reaching Hearts for Kids provides food and shelter for children living on the streets. Basic education is one of our goals to give children a better future. It is existing homes that are run by dedicated people devoting their lives to making a difference while struggling to care for children left alone due to HIV/AIDS that get our priority. We help with medical care and dig wells so children can have clean water to drink.

## Testimonial

“Thank you for your help. Before you came I used to sleep on sacks which were very dirty and stinking. At home I could go without meals for a day or two. My sole dress which served me as a uniform was torn all over. I’m glad because here at school I eat three times a day and there are good meals.” *Mutete is a 13 year-year old girl from Nairobi, Kenya (2004)*
